

Sludge drying plant

Article No. 4061

Technical data:

Machine:	Sludge drying plant
Producer:	European Manufacturer
Type:	
Size:	
Capacity:	ca 2000 kg /h
Year:	2000

Description:

Sludge drying plant to dry biological sludge to pellets with a dry content of 95 %. This plant is in a very good condition

Dryness of sludge inlet 16 %

Dryness of pellets 95 %

Capacity sludge inlet: ca 2000 kg/ h

This plant is consisting of approx 30 components of different European manufacturers.

Space requirement 20 x 20 x 20 m
