|-----------|---|
| Machine:  | laboratory press                          |
| Producer: | C.M.R                                     |
| Type:     | Fibre press - Laboratory press T.180 LAB. |
| Size:     | -   |
| Capacity: | -   |
| Year:     | -   |

### Description:

Semi-automatic press with hot-hot or hot-cold cycle, with manual loading and unloading, for hot pressing of chipboard coated with decorative paper; for carrying out laboratory tests for quality control in series production.

Maximum operating power 180 tons

Operating pressure 224 bar

Plate dimensions 420 x 420 mm.

Opening between the plates 100 mm.

Specific plate print 100 Kg/cm<sup>2</sup>

Plate maximum temperature 200 °C

Power Pump Motor 5.5 KW

Heating capacity panels (simultaneous) 50 KW

Oil tank capacity 130 l

Space requirement (when the machine is installed) 2300 x 1600 x 1800h mm.

Theoretical total weight 2550 kg.
