

Tissue paper machine 2200 mm

Article No. 4272

Technical data:

Machine:	Tissue paper machine 2200 mm
Producer:	-
Type:	-
Size:	2060 net width
Capacity:	39 t/24 h
Year:	-

Description:

General information:

Paper machine

Maximum performance with which the machine worked with sheet width 2060 [mm]

Capacity: 39 [ton / day]

Production speed: 360 - 400 [m / min] depending on grammage

The range of basis weights produced 30 - 60 gsm

Width of the sheet after headbox 2200 [mm].

With waste paper stock preparation

- Pulper 15 m³ with feeding conveyor
- Pulper discharge machine and first sorter
- Hett separator with vibrating screen
- Lamort ADS 5 pressure screen
- Pressure screen made by Nelba
- Lamort CH 3 pressure screen
- Maule Kneater with a capacity of 60 t/day
- Krofta Clarifier
- Voith HD cleaner
- Chest with 5 m³ volume
