

# Compact Washer Voith

## Article No. 4615

### Technical data:

Machine:	Compact Washer Voith
Producer:	Voith
Type:	Compact Washer
Size:	None
Capacity:	up to 9000 l/min
Year:	None

### Description:

Compact Washer for wash deinking made by Voith in very good condition. Width 2460 mm,

#### Wash deinking

Wash deinking consists of a washing stage where dispersants are added to wash out the printing inks. When the pulp slurry is dewatered (thickened), the medium to fine particles are washed out. This process is most useful for removing particles smaller than about 30 µm, like water-based inks, fillers, coating particles, fines and micro stickies. This process is more common when making deinked pulp for tissue.
