

Label making machine Flexor

Second hand machine | Article No. 4968

Technical data:

Machine:	Label making machine Flexor
Producer:	Flexor
Type:	Fleor B 380
Size:	380 mm
Capacity:	300 m/min
Year:	None

Description:

Used label making machine:

max.web width: 380 mm

max.speed: 300 m / min

Unwinder:

Max.roll diameter: 800 mm

Pneumatic unwinding spindle: diameter 76 mm

Programmable end of roll

Single rewinder:

Max.winding diameter for individual winding: 500 mm

Pneumatic unwinding spindle: diameter 76 mm (easy spindle change)

Winding spindle with its own servo drive for precise winding tension

Winding tension is given in Newtons: 1 module

Cutting unit:

Longitudinal cutting unit with transverse register +/- 7 mm and cassette insert: 1 set

Setting unit for the shear blades outside the machine

Shear knife set (upper and lower knife) 12 pieces

Minimum. Width of the longitudinal section: 20 mm

Cutting between two servo driven preferred shafts: 1 module

Web tension control:

Complete control of the rewind tension thanks to servo-controlled rewinder

Pneumatically controlled preferred shaft with its own servo motor

Diameter control on all shafts (unwinding shaft, winding shaft, lattice shaft): 1 module

Counter:

Meter and decimeter counter

^{2 / 2}
Label counter for transparent labels
